ALUMINUM REPAIR SEMINAR

DATE: WEDNESDAY – OCTOBER 25
TIME: 6:00 PM
PLACE: TERRY MORRIS FORD – Body Shop
872 Saratoga Rd – Rt 50
Burnt Hills, NY 12027

***IS YOUR SHOP PREPARED TO HANDLE
ALUMINUM REPAIRS?***

A recent survey of automakers indicates that *“the use aluminum will experience unprecedented growth over the next decade.”*

The survey reports that automakers will continue to increase the adoption of high-strength , low-weight aluminum in new car and truck construction at a faster pace than any time in history..

This seminar will offer a “hands on demonstration” of the removal & installation of an aluminum box side on an Ford F-150 truck bed – using a combination of Self Piercing Rivets, Pop Rivets & Adhesives. It is open to all shop owners and technicians, and it will be presented by Kurt Zimmerman of Autobody Supply of Albany.

Refreshments will be provided (sub sandwiches, chips, soft drinks) by CDAA at 6:00pm
Seminar will commence at 6:30pm

Please call or e-mail to indicate the number of people who will attend from your shop so we can order refreshments accordingly.

Sue Caulfield - CDAA – Executive Director – (518) 339-7535
